**and what  
have you**  
by BOB CRAIG

As president of the Hamlin Jaycees I would like to take this opportunity to thank the people of Hamlin for their wonderful response to the Jaycee Miniature Golf Course in the park. The turn-out has been most gratifying.

I would also like to thank the many people who helped in making this recreational program possible for Hamlin.

But most of all I would like to publicly thank the members of the Jaycees who spent so many hours away from home to complete this project in record time. I would like to express my appreciation to the wives, who not only let their husbands be away this much, but also helped, with the work.

With this kind of cooperation from the people of Hamlin the possibilities are unlimited.

With school fast approaching motorists are urged to use extra caution in driving. The local police are making a drive now to enforce the observance of the stop signs that were placed on the streets this past spring.

When you catch yourself being careless in stopping at these signs remember that when you are driving on a street protected by signs you rely on the other fellow to yield to your right-of-way and the same should be true when you should stop.

There is nothing more dangerous than to depend on a stop sign that is not needed.

For those of you who failed to see it, the Chief of Police, Frank Chapman, received a real nice write up in the Sunday's Fort Worth Star-Telegram.

Like the kids, I am fighting to hang on to a little bit more of summer. All of this Back to School advertising, football camp and the like is not helping any. But now I see that signs have already gone up in some of the stores to buy now for Christmas — this is too much.

Things move too fast for me to keep up without rushing the seasons up to where a person stays in a complete daze.

Maybe I am a throw back, but this promoting a season before it ever gets here and then by the time it does get here, promoting the next season leaves me out.

The hopeful sign is that the Madison Avenue boys may slip up and get so far ahead that we will soon be back where we started.

SUMMER'S OVER—Members of the Pied Piper football squad found out Monday that the summer has come an end and that football time is here again. ## HOMECOMING REGISTRANTS WILL RECEIVE FIRST DIRECTORIES

Final copy for the Ex-Student Directory was turned in this week to the printers for publication. The directory will list all former students, their addresses, occupations and number of children; if the information was available. The 100-plus page publication will be distributed during Homecoming Sept. 8.

The size of the directory has increased beyond expectations therefore a change of plans has been necessitated. Mrs. Kenneth Riddle, president of the ex-student group said this week that "Due to the volume of the ex-student directory, the expense of printing will be greater than first anticipated. Advertising was sold to cover the major cost of the printing and those advertisers and ex-students who have paid their membership dues will be the first to receive their directory."

She said, "In the beginning it was not the intention of the officers of the association to charge for the directory but after the publication was completed the group realized it was much larger than expected and

could not be distributed without a fee.

The directories will go first to the advertisers and then to ex-students who have registered for \$1.00 each. The remainder will be then on a first come, first served basis. A limited number will be printed.

Ex-students are urged to register soon in order to be on the priority list for the directory. Others desiring the publication may obtain a copy by sending \$1.00 to the Ex-Student Association, Box 323, Hamlin.

A great deal of work has gone into the making of the directory and names of 1800 former students and teachers are listed with information as accurate as possible. Information from records assembled since its organization eight years ago were used. Classes from 1911 - 1962 are included.

The publication containing approximately 150 pages will be a pocket size, 4" x 8 1/2" and will have a bright green washable cover. The book will be folded by former students. The printing is being done by Pied Piper Publishing Co.

## SUPERINTENDENT GIVES PATRONS REPORT ON SCHOOL CONDITIONS

C. F. Cook, Superintendent of Schools, has released the following statement:

"As the beginning of another school year approaches, it is appropriate that we consider our present education situation in Hamlin and the direction of the future."

"All school administrators and local Boards of Education are constantly faced with problems which offer no simple solution. In the Hamlin School District, we must constantly re-evaluate our objectives and always ask, 'what is the proper role of education?' Two of the paramount problems are closely associated—the rising cost of supplies and equipment and insuring adequate financial support for these demands."

"Citizens of the district have met the challenge of providing necessary school facilities for this community."

"The Hamlin Board of Education has adopted a budget for 1962-63. The loss in values for depletion of oil was \$237,000.00, which is a loss in revenue of \$3,555.00. The local assignment from the State rose from \$92,429.00 to \$96,767.00, this is a loss of State Funds annually to \$4,336.00. With the loss of \$3,555.00 from local and \$4,336.00 from State, we will have \$7,871.00 less in our budget this school year (1962-63) than last year."

"The Board of Education has cut the budget this amount in order not to raise taxes. We can depend on a loss of oil

## Grass Fires Cause Two Fire Alarms

The Hamlin Volunteer Fire Department has been called out on two occasions during the past week for grass fires. Weather conditions have been such to cause the grass to be extremely dry so Fire Marshall Ed Branscum has requested that Hamlin residents be very careful when burning trash in order to prevent grass fires.

On Friday at 9:55 a.m. the fire department was called out for a grass fire about seven miles northeast of town which threatened a nearby ranch. There was no damage. On Monday at 2:20 p.m. another grass fire was reported out of control north of the MK&T Railroad, near the E. W. Frost residence. The fire was quickly extinguished with no damage reported.

## MILL ACCIDENT HERE SAT. KILLS MAN

A 32-year old Hamlin native was suffocated under a pile of cotton bolls in a freak mishap Saturday about 1 p.m. at the Mid West Cooperative Oil Mill.

J. W. Waller was loading bolls on to a conveyor belt which carried them to a truck when the 25-foot high pile of bolls caved in on him. Waller was alone in the mill house at the time and the accident was not discovered until his fellow employee returned from lunch about four or five minutes following the cave-in.

He was pronounced dead on arrival at Hamlin Memorial Hospital about 2 p.m. after being dug from under the pile of bolls by fellow employees. An ambulance from Hamlin Funeral Home was rushed to the scene, and Waller was given artificial respiration and oxygen but efforts to revive him failed.

R. L. McClung, manager of the oil mill, said Waller had been employed by the mill for about four years and had been running the mixed feed plant.

Waller was born October 22, 1929, in Hamlin to Mr. and Mrs. Sam Waller.

He became a member of the Baptist Church in McCaulley at an early age.

Services were conducted on Wednesday at 2:30 p.m. in the Oak Grove Baptist Church with Rev. U. L. McPherson, Rev. A. F. Douglas and Rev. F. C. Ransom, pastor, officiating.

Survivors include his wife, Willie, a son, Billy Dwayne; his parents, seven sisters, Mmes. Savannah White, Vivian Lee Jordan, both of Midland; Willie Mae Childs, Estelle Cole, Carey Tanner, all of Fort Worth, Bettye Molden of Dallas, Mrs. Ruby Jewel Willis of Hamlin; four brothers, W. T. of Los Angeles, Calif., Earnest, Sam, both of Fort Worth and A. C. of Hamlin.

Burial was in Hamlin Cemetery.

Rev. and Mrs. Eugene Sorley and children visited with their grandfather, G. W. Wainwright Sr., recently. Rev. Sorley is an instructor and director of the Wesley Foundation at Midwestern University.

# Hamlin to Take Part in Area Anti-Polio Drive

The people of Hamlin will be given the opportunity of being immunized against polio during a massive drive which encompasses a wide area of West Texas. Hamlin is joining with other West Texas towns in setting aside Sunday, Sept. 16, as the day for the mass oral vaccination program.

The plans for the drive have been formulated by the Taylor-Jones Medical Society and the local doctors have worked with them to secure the vaccine and other materials for the campaign.

Facilities will be set up in the high school gymnasium for the program which has been scheduled from 1 to 7 p.m. The vaccine will be administered in liquid form under the supervision of Dr. M. L. Smith, Dr. E. D. Perrin and Dr. E. J. Hawkins. All residents should make plans now to take advantage of the massive effort of many citizens to bring the which will combine the work valuable vaccine to Hamlin.

The inoculation will be carried out free although an opportunity will be given for those who can and so desire to make a contribution. Cost of the program has been estimated at 25 cents per dose.

Everyone from babies six weeks old on up should take the vaccine. Even those who have had the series of salk vaccine shots should take these new doses.

The campaign will be conducted in three stages.

The doctors said that Type I vaccine will be given Sept. 16, Type 3 in October 23 and Type 2 on December 9.

There is no connection between any of the doses, a dose of one kind is complete in itself. It will not be affected by taking or not taking of a subsequent dose. Each dose is designed for a specific type of polio, therefore all doses are needed for complete protection.

By taking all of the three doses a person becomes immune to the three types of polio known to medical science.

The Hamlin Board of Community Development is assuming responsibility for the details of the program here and will be assisted by other civic organizations and volunteers.

On Saturday evening his message will be Christianity vs. Communism and he will be relating personal experiences during his visit in Moscow last year.

On Friday evening he will show colored slides taken while on a six weeks' mission which covered almost 25,000 miles and was under the auspices of U. S. Air Force and individual churches of Europe and Middle East. The slides shown at this time will depict the message which he will be delivering Saturday evening.

The pastor, Rev. Lenard Hartley, invited the public to attend services which continue through Sunday evening.

## NEINDA PHILOSOPHER STILL DOUBTS MAN WILL FIND ANYTHING IN SPACE TO EQUAL HOME GROUND

Editor's note: The Neinda Philosopher on his Johnson grass farm on Route one continues unenthusiastic about outer space, his letter this

week indicates. Dear editor: A neighbor of mine was awfully depressed the other day while those two Russians were sailing through space.

"They're just too far ahead of us," he kept saying. "We debate whether our men will stay up for three or four hours, while they debate whether theirs will stay up for three or four days."

He shook his head as though all was lost and it might not even be worth while farming another year.

Well, now, I'll tell you. It's true that ever since Columbus discovered America and opened up the best source of foreign aid Europe ever had, man has been trying to reach out and explore some more, but I'm not sure the moon will be as rewarding to mankind as the discovery of America was. It may not have the soil we've got down here.

I don't know, nobody does, but it's possible that when man, Russian or American, does reach the moon and the first wild excitement of the feat is over and he has a chance to look around up there, he may discover that the earth sure looks good to him. May be like climbing a high mountain—once it's done, it ain't worth doing again.

Then I suppose man will try some other planet, then another, then some more, and still it's possible he won't find anything that'll come with a country mile—or in space terms a million miles—of the pleasant things right outside of my front door or yours.

I'm not saying it's so, but you've got to consider the possibility that being the first man on the moon may not be any more important in the long run than being the first man to vault 16 feet. It's quite an achievement, but it has little bearing on the continuing fun of living on this fairly comfortable earth.

Understand, I'm not saying there's nothing out in space worth exploring, all I'm saying is that I have a notion that the happiest moment in an astronaut's experience is the feel of earth when he gets back down. It's no doubt thrilling to orbit the earth, but after three days of it, round and round, twiddling with knobs and looking out a window at nothing, it must get mighty boring, even worse than riding a tractor up one row and down another.

Yours faithfully, J. A.

## IN NEED OF Specialized HELP

The car's acting up... sometimes he can repair minor problems himself... but this time it looks like it may require the work of a specialist. To correct this problem he needs a mechanic, someone who has the knowledge and equipment for this particular work.

In spiritual matters, individual worship is necessary and vital to one's life, but God in his wisdom has said that we need to worship with others too. At church we can receive help from those who have dedicated their lives to special service for God.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

By MRS. ELMER JOINER

We could play the weather-man's record this morning, fair - hot. However the temperature has been lower than it was last week, the heat hasn't hurt as much, maybe we are used to it by now. Anyway, the farmers think the bugs have let up and the cotton is fruiting. The dry weather is hurting the old cotton very much, but the young cotton is still holding up in most areas.

The Revival closed last night after a ten day series of services. We had fair crowds, good singing and lots of good preaching. We especially appreciated all of the visitors coming and hope they received a blessing from being with us. Since one was going to the church all week, very little other news has happened out this way.

Mr. C. C. Renfro was buried

last Tuesday afternoon, having passed away last Sunday in the Hamlin Hospital. Mr. Renfro had been seriously ill for eleven months, having had surgery on his head at that time, from which he never recovered. Mrs. Renfro is the former Jennie Riddle, both were pioneer residents of this community, having married July 4th, 1923. His wife and five children are survivors.

Another pioneer, former resident of this community, was also buried Thursday afternoon. Mr. H. M. Phillips, who operated the station and grocery at the intersection of the Anson and Hamlin highways near Stamford for many years died at his home Wednesday. Funeral was held in the Stamford First Baptist Church with burial in the Fairview Cemetery. Mr. Phillips had also been ill about eleven months, having had surgery several times for skin cancers. Mrs. Phillips is the former Lenyce Huling. She and two children survive, also grandchildren.

Mr. and Mrs. Woodrow Goodwin and Linda went to the Anson Hospital to visit with Mr. and Mrs. Weston Goodwin. Woodrow's brother, from California last Tuesday afternoon. Mrs. Goodwin's father, Mr. White, is very seriously ill in the Anson Hospital, but owing to business obligations they were forced to return home Wednesday morning.

Mr. and Mrs. Jack Gray got their house painted last week, and it looks very pretty and

white. Mrs. H. L. Ford returned home from the Hamlin Hospital last Wednesday morning, where she had surgery the previous week. She is not feeling too good at the present and is having to take it easy.

Mrs. Derrel Lewis had her folks from Lubbock with them over the weekend. Her parents, Mr. and Mrs. J. W. Ray, a sister, Mr. and Mrs. Bobby Miller and Veeta, were in church Saturday night and Sunday morning with them, combining a visit with hearing Rev. Lewis preach.

Mr. and Mrs. E. A. Henry are getting more modern every week. Sunday they met their son and family, Clois, of Snyder, in Abilene, where they boarded the plane with them and flew to Austin to spend the day, returning before night.

Mr. and Mrs. Elmer Joiner attended the annual Pioneer Day at the Oil Mill Guest House, in Hamlin, last Friday. The organization voted to disband and combine with the Jones County Settlers Day in Anson next year. Only about half as many attended this year, as last, although every one had a good time, and lots of good food was enjoyed. The Rev. Walter Copeland, retired Baptist preacher, was the principal speaker of the program. Rev. Copeland is a former pastor of the Fairview and Tuxedo Baptist Churches, and his wife was Bessie Treadwell, the daughter of Mr. and Mrs. Dav-

Band Invited To State Music Festival

The Hamlin Pied Piper Band is one of only seventeen high school bands to be selected throughout the entire state for participation in the State Fair Music Festival.

This annual festival is to be held in Dallas during the State Fair, and will take place in the Cotton Bowl on Tuesday evening, October 9 at 8:00 p.m. During the afternoon preceding the night performance, the Piper Band will present a 20 minute free public concert, as

will the other sixteen bands. Each band has been selected to represent one of the seven-teen music regions of the state, and the Piper Band is honored to be one of the chosen few.

Funds to finance the trip will be raised by the band students themselves, and items for sale have already been ordered. After a major reduction in the total number of fatal traffic crashes in 1960 over 1959, the 1961 total edged upward again. Of the 1,899 fatal collisions in 1961, 1,235 occurred outside cities, 644 in cities.

## 30 PREDICTED TO DIE IN TEXAS LABOR DAY TRAFFIC

Colonel Homer Garrison Jr., Director of the Texas Department of Public Safety, today announced the official estimate that 30 persons will be killed in some 3,000 traffic crashes during the upcoming 72-hour Labor Day weekend.

Commenting on Labor Day travel, Garrison said:

"Many Texas families will advantage of this last long summer weekend to take trips prior to the opening of school. As a result, traffic will be heavy and the possibilities of traffic crashes will be increased."

"Because this holiday is so much a family affair, more people will be occupying cars. Thus any traffic accident might result in several casualties. This has been evidenced several times on Texas highways in recent weeks. During one 7-day period in August, three crashes claimed the lives of 20 persons."

Garrison noted that during the past eight weeks traffic four per cent below to two per cent above the toll for the deaths have increased from corresponding period of last year.

But the most alarming thing

accidents is now running four per cent above last year's figure, he said. "Experience has shown that in nearly every fatal accident a violation of traffic law has been a major causative factor."

In an effort to focus public attention on the hazards of holiday travel and to compile additional data which will be helpful in improving the State's traffic management program, the Department of Public Safety will conduct "Operation Motorcade" from 12:01 a.m. Saturday, September 1 through 11:59 p.m. Monday, September 3.

During this period, the Department will tabulate all traffic deaths in the State and will issue daily bulletins at 10:00 a.m. and 8:30 p.m.

In an all out effort to insure driver compliance with traffic regulations and to hold traffic crashes to a minimum, the DPS has made plans to augment its regular Highway Patrol force with some 150 uniformed officers from its other services during this three day period.

"But the solution to the traffic problem in Texas is in the hands that hold the steering

wheels," Garrison said. "Drivers should remind themselves during the Labor Day weekend, and every time they drive, that the operation of a motor vehicle is a full-time job. At no other time are your loved ones more dependent upon you."

## FARMERS TO VOTE ON WHEAT QUOTA REFERENDUM AUG. 30

Wheat farmers will vote in a referendum August 30 to decide if marketing quotas will apply for the 1963 crop, according to C. H. Bates, farm management specialist, Texas A&M College.

The referendum was announced recently by Secretary of Agriculture Freeman in accordance with the present law which makes such action necessary when wheat supplies are more than 20 percent above normal. The same situation exists now as existed in 1961, before the emergency wheat program was enacted, for the 1962 crop, the specialist said.

The law directs that wheat acreage allotments are to be used each year but at least two-thirds of the voters in the referendum must favor quotas if they are to apply to the next crop, he continued.

Approval of Marketing Quotas would mean, (1) in commercial wheat states all farmers with more than 15 acres of wheat will be subject to quota penalties on their "excess," except those who comply with the feed wheat provision. The penalty rate would be 45 percent of the parity price as of May 1, 1963; (2) growers who comply with their wheat allotments will be eligible for price support at the level announced, of not less \$1.82 per bushel on a national basis.

Disapproval of Marketing Quotas would mean, (1) marketing quotas and penalties will not be in effect for the 1963 wheat crop; (2) acreage allotments will be used to determine eligibility for price support; (3) the wheat price support rate will be at 50 percent of parity, or about \$1.21

per bushel national average. Those who can vote are the farmers in the 39 commercial wheat states who will harvest more than 15 acres of 1963 wheat as grain but those taking part in the 1962 "feed wheat" program are not eligible to vote.

Producers will receive official notice of their allotments by mail before the Aug. 30 vote, Bates adds. These notices will be helpful to the farmer in his decision on the referendum.

For further information on

the wheat marketing quota, contact your county ASC committee.

### WAVE OF FEAR GROWS IN DOCTORS' STRIKE

REGINA, Sask., July 3 (UPI)—A wave of fear spread today through this vast province where hundreds of doctors were on strike in protest against Saskatchewan's new socialized medicine law.

Doctors were available for emergency cases only and ailing citizens were traveling miles from their homes to seek medical attention.

#### Whom They Blame

Some of Saskatchewan's one million residents blame the striking doctors for the crisis which has deprived them of normal medical service.

Others contend the fault lies with the socialist government of Premier Woodrow Lloyd.

But everyone agrees something must quickly be done to end the bitter dispute.

#### A Faint Hope

If unresolved over a prolonged period of time, many citi-

zens find themselves at the ease and injury.

tors who earlier said that a complete scrapping of the medicare plan was an indispensable condition for the resumption of normal medical service.

#### 900 Doctors Involved

The battle between Lloyd and the province's 900 doctors, which has been raging in government and medical circles for several months, began touching the daily lives of Saskatchewan two days ago when the premier's controversial plan became law.

The law, modeled after Britain's National Health Program, marks the first inroad socialized medicine has made on this continent.

Almost immediately after the new law went into effect, the doctor's strike began.

### TO THE PEOPLE OF AMERICA

- When the life—or health—of a loved one is at stake, hope lies in the devoted service of your DOCTOR.
- Would you change this traditional patient-physician relationship?
- Compulsory Health Insurance is political medicine.
- It would bring a third party—a politician—between you and your DOCTOR.
- I would bind up your family's health in red tape.
- Political medicine would result in heavy payroll taxes—and inferior medical care for you and your family.
- Don't let it happen here!
- You have a right to prepaid medical care—of your own choice.
- Ask your DOCTOR about budget-basis health protection. Under Voluntary Health Insurance, your health is your own business. KEEP IT THAT WAY.

**FIENDISH TORTURE** — Wandisa Guida tries to remove fiendish iron mask from lover, Michel Lemoine, in scene from American International's color and techniscope adventure thriller, "Prisoner of the Iron Mask," which opens Wednesday at the Hamlin Drive In Theatre.

**Walt Disney's 'Bon Voyage' Opens At Drive In**  
Moviegoers who like their screenfare light and breezy and loaded with laughs have a real entertainment treat in store for them when Walt Disney's rollicking new Technicolor romantic-comedy, **BON VOYAGE!**, opens at the Drive In Theatre on Saturday.  
Based on the delightful Marjane and Joseph Hayes best-seller, this story of a typical American family's misadventures in their first European "dream vacation" tops even Disney's recent comedy-smashes, "The Absent Minded Professor" and "The Parent Trap" for sheer laughter and fun.  
A glittering array of talent comprises the cast, headed by Fred MacMurray and Jane Wyman, two of Hollywood's most accomplished performers, co-starring for the first time on the screen. As the attractive American couple, Harry and Katie Willard, who take their three off-springs on a whirlwind European jaunt, Fred and Jane have endowed their roles with all the human qualities everyone expects of a pair of average parents. Some of the problems they encounter along the way shouldn't happen to a tourist!

**REPORT**  
(concluded from page one)  
values each year in the future. This loss must be made up by local sources.  
"In addition to buildings and teachers, support for education is essential. When parents recognize achievement in school as being important, their attitude is reflected in their children. Effective education demands a close partnership between home and school, and this partnership must be based on mutual mutual understanding and respect.  
At this point in the history of our country, we must do a better, more thorough job of educating our youth than we have ever before dreamed of doing. Our leadership is being challenged by other nations. The road to survival is through education. We Americans must commit ourselves more deeply to strengthening our educational system. As our schools go, so our nation will go, for the successes or the failures of our public schools will influence profoundly our national destiny. Wisely, the choice has been placed in the hands of the citizens of each school district as to the quantity and quality of education which they wish to provide.  
"A Democracy demands of its education both quantity and quality. Never before have so many been educated so well as in the United States. Their achievements have been the results of constant efforts to experiment, spurred by a desire to improve.  
"The challenge of quantity has largely been met. Most of America's youth are in school and most classrooms have teachers.  
"But the challenge of quality is now more difficult to meet than ever. Attracting and retaining highly qualified teachers is a formidable problem. The body of knowledge that a secondary school must pass on to its students has expanded tremendously and growing at an enormous rate. An education would fail to fulfill its purpose unless it also contributed toward the progress of society.  
"It is becoming increasingly clear that the residents of the Hamlin School District want the best education for their children. As long as the residents are willing to support improvements with their tax dollars, the future looks bright for the youth of our community.  
"We will continue to meet new challenges, and new problems. With the help and support of the good people of this community, we intend to meet each new challenge and to continue to provide a system of public education of which each member of our district can be justifiably proud."
